My Data Outlet (“MDO”), an innovator in delivering data integration tools for Research and Financial modeling, announced a software license agreement with Smith Graham & Co. Investment Advisors, L.P. (“SGIA”) to power its investment process.

SGIA was able to successfully migrate their existing processes using the MDO SDK and has expanded their research capabilities with MDO.

About My Data Outlet

The MDO SDK gives users a single access point through R and Python for extracting data, factor research, and deploying models into production. Founders Patrick Howerter, CFA, and Edward Sylvester, CFA, bring a combined 30 plus years of experience working for financial institutions developing research models and for financial data and infrastructure providers. This combined experience allows them to uniquely understand and develop integrative solutions for their financial clients. MDO is based in Chicago, Illinois.
